Corcoran Irrigation District has requested a letter of support from the City of Corcoran for local Tulare Lake Subbasin Groundwater Recharge and Sustainability Projects.

Recommendation:

Consider retroactively authorizing the City Manager to send a letter of support for local groundwater enhancement projects.

Budget impact:

None with this action.

Background:

On January 24, 2022, the Corcoran Irrigation District (CID) sent a letter requesting a letter of support for local groundwater sustainability projects within the Tulare Lake Subbasin. CID is seeking grant funding for two projects. The first project proposes to deepen an existing basin located south of Nevada Avenue and east of 5th Avenue to increase storage and recharge capacity. The second project is the replacement of existing open canals with enclosed pipelines located northeast of Nevada Ave and State Highway 43 to enhance water delivery efficiency.

The deadline for letters of support was January 28, 2022, and did not allow for enough time to bring before the City Council. The City Manager prepared and submitted the attached letter on behalf of the city as these projects are considered to enhance local groundwater management efforts and use of State funding for construction. The City Manager is requesting the City Council retroactively authorize submittal of the attached letter of support.

Re: Letter of Support for Tulare Lake Subbasin Groundwater Recharge and
Sustainability Projects

Dear Mr. Kilgore:

The City of Corcoran supports the efforts of our representative El Rico GSA and the combined Tulare Lake Subbasin GSAs in their grant application with the California Department of Water Resources (DWR) for funding to support the Tulare Lake Subbasin Groundwater Recharge and Sustainability Projects. Two projects locally proposed by Corcoran Irrigation District (CID) will directly enhance our local groundwater recharge capacity and water distribution efficiency. The proposed deepening of the CID basin located south of Nevada Avenue and east of 5th Avenue will enhance local groundwater recharge capacity and allow for additional capture of excess flood water in wet years. The proposed CID replacement of existing open canals with enclosed pipelines located northeast of Nevada Avenue and State Highway 43 will also enhance water delivery efficiency and reduce evaporative loss. Projects like these are essential local investments if we are to enhance our groundwater resources.

The City of Corcoran fully supports these sustainable groundwater infrastructure investment projects. We also recognize our local communities need for grant funding to make improvement projects like these a reality. The City of Corcoran strongly encourages DWR to consider funding these sustainable groundwater projects.

Sincerely,

Greg Gatzka
City Manager

Subject: Support for Tulare Lake Subbasin Groundwater Recharge and Sustainability Projects

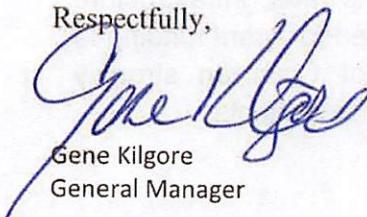

Mr. Gatzka,

Corcoran Irrigation District and the El Rico GSA is seeking the support of the City of Corcoran (City) for the **Tulare Lake Subbasin Groundwater Recharge and Sustainability Projects** grants application being submitted by the Tulare Lake Subbasin GSAs to the California Department of Water Resources (DWR).

The projects and components proposed on the application offer opportunities to reduce reliance on groundwater through expanding surface water distribution systems and construction of groundwater recharge basins to capture flood flows to offset groundwater pumping and stabilize groundwater levels near Disadvantage Communities within the critically over-drafted subbasin. By stabilizing groundwater levels, the City's water quality may be benefited.

The efforts of the Tulare Lake Subbasin GSA's will provide immense benefits to our subbasin and the communities within. The City's support would be greatly appreciated.

Respectfully,

Gene Kilgore

TO: Corcoran City Council

FROM: Greg Gatzka, City Manager

DATE: February 3, 2022

MEETING DATE: February 8, 2022

SUBJECT: SB 1383 Local Assistance Grant Application

Summary:

California Department of Resources Recycling and Recovery (CalRecycle) is making available a non-competitive grant of \$27,877 to the City of Corcoran for implementation of SB 1383 for mandated organic waste recycling and food recovery.

Recommendation:

Consider approving Resolution No. 3117 to authorize the City Manager to apply for CalRecycle grants for the next 5 years.

Budget impact:

None with this action. If awarded, the city will receive \$27,877 to support SB 1383 implementation efforts that include materials purchase, educational marketing, and staff time.

Background:

On January 4, 2022, the City of Corcoran was notified by CalRecycle that SB 1383 Local Assistance Grant Program funds are available to the City. This grant is non-competitive, and Corcoran is identified as eligible for \$27,877. Grant funds must be used for SB 1383 implementation efforts related to organic waste recycling and edible food recovery. As a new mandated activity, these funds will assist that City in some SB 1383 implementation efforts.

The deadline for submittal was February 1, 2022, by noon. The City Manager in coordination with our Public Works Department and solid waste hauler, prepared and submitted the grant application on time. An approved Council Resolution authorizing the City Manager to apply for the grant is now needed to finalize the application and be submitted by March 1, 2022.
